

COOINDA CERAMICS

Quality and Service to the foundry industry

EZY-FLO WELLS

- ✓ *Located at the base of the down sprue or runner junction*
- ✓ *Helps prevent the pick up of sand from the wash, promoting cleaner, defect free castings*
- ✓ *The **high alumina formulation** increases resistance to **thermal impact** and **abrasion** by molten steel*
- ✓ *Designed to incorporate with the full range of Cooinda **EZY - FLO** components*
- ✓ *Accurate and consistent dimensions*
- ✓ *Available in three designs*
 1. *Double Slot*
 2. *Large Double Slot*
 3. *Single Slot*
